BEGINNING HTML

THIS SAYS "BEGIN ITALICS NOW."

THIS IS THE ACTUAL TEXT

THIS SAYS "END ITALICS NOW."

`<i>text</i>`

THIS IS WHAT SHOWS UP ON YOUR SCREEN → *text*

ITALICS
`<i>text</i>`
Italicizes text

BOLD
`<b>text</b>`
Makes text bold

PARAGRAPH
`<p>text</p>`
Creates (and then ends) a paragraph.

LINK
`<a href="http://www.google.com">text</a>`
Creates a link. Clicking on the word "text" will bring you to http://www.google.com.

IMAGE
`<img src="http://www.flickr.com/myimage" />`
Adds an image from the specified link.

HEADER
`<h1>text</h1>`
Formats your text as a header. By default, this means that your text will be larger and have space around it. You can also use h2, h3, and so on.
